New Sheltered Housing Accommodation - Mountsteven Avenue, Peterborough

Housing 21, formerly known as 'The Royal British Legion Housing Association', commissioned this bespoke self contained facility for the elderly designed to meet the individual needs of the residents, enabling them to maintain an independent lifestyle.

The new-build project contains forty-eight individual self contained housing units, together with associated communal facilities and a detached manager's house.

The facility was jointly funded by the Housing Corporation and Peterborough City Council.

Bishopsfield closely follows the principles of 'Care in the Community' with agreements being formalised between Housing 21, Cambridgeshire Social Services and a private care agency for the provision of support services.
