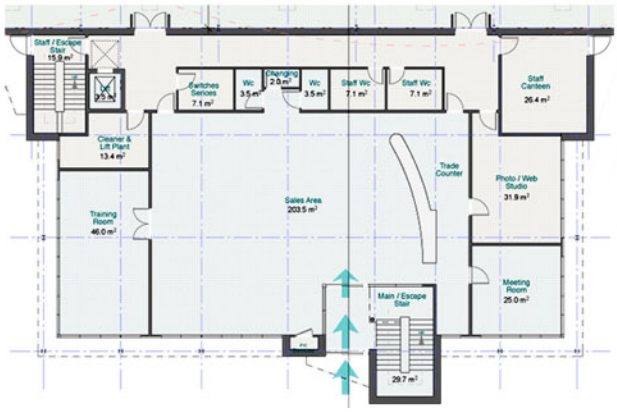
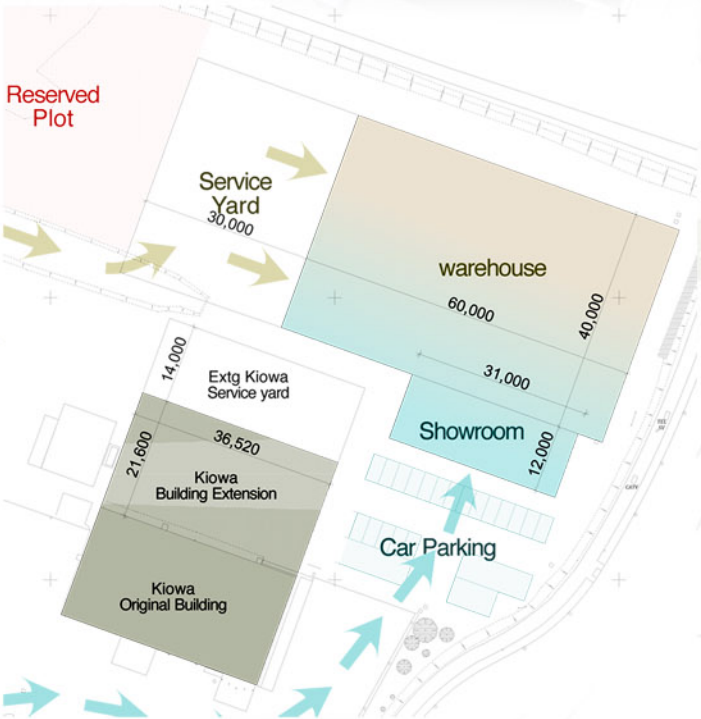
Following Kiowa's launch of their e-commerce venture, their storage, distribution and manufacturing requirements have grown exponentially, alongside their over the counter service and sales.

brp have been engaged to design their new flagship premises on the family owned business park on the outskirts of Sleaford.




The proposals are for a two storey, 750sqm retail, office and telesales facility fronting a 2400sqm distribution warehouse, with second phase expansion capacity of a further 1200sqm.
